

LABELROBO

LCX603 Series

Nameplate labels

Caution labels

Complex-shaped labels

Easy to create high quality label from one piece to a full run. Added 1 color / 2 color model. 3 models in our lineup!

LABELROBO is an all-in-one label printer that easily creates labels with characters and illustrations designed with a computer. Labels can be created quickly in the required quantity with short delivery, low cost, and minimal inventory.

Three models by the number of printing color!

- 1 color model* (only Black) LCX603-01
- 2 color model* (Black + 1 color) LCX603-02
- 3 color model (Black + 2 colors) LCX603

* It is able to upgrade up to 3 colors. (Option)

Weeding

Weeds automatically after cutting contour

DIE-FREE Cutting

Cuts the contour without using cutting die by using the cutting plotter technology

Laminating

Laminates automatically after printing

Printing max. 3 colors

Prints high quality in 600×1200dpi (Black & 2 spot colors)

Frame cut
(Weed border)
ON/OFF

Cross cutter
ON/OFF

Max. Cutting Speed
300mm/s

Max. Cutting Force
2.94N (300gf)

Registration mark sensing
3 points

Laminating
ON/OFF

Printing Resolution
600 x 1200 dpi

Ink Ribbon
7 colors

Printing Colors
Max. 3 colors

Easy to create high quality labels from one piece in the factory or the office !

LABELROBO LCX603 Series

3 models up to 3 colors

The system is able to select the model from single-color, two-color and three-color options according to the application. Single color and two color model are capable of adding color by the optional upgrade kit.

Label design software: NiceLabel

Dedicated label design software is included as a standard accessory. Labels such as nameplate, caution, or information labels that include the characters, illustrations, barcodes, and QR codes can be easily created.

Printing an image in 3 colors

High quality printing in 600 x 1200 dpi by three colors is easily accomplished (black + 2 colors). Thermal transfer method is used; inks and solvents are not required.

Cutting contour

Contour cutting is performed automatically after the label laminated. The cutting tool allows a contour of any shape. A cutting die is not required. The labels can be created at low cost.

Laminating

Laminate film is automatically applied after an image is printed. Polyester (PET) and polypropylene (PP) based materials are available. Durable labels are created.

Weeding

Weeding mechanism is included, and waste matrix along the contour are wound for removal. Cross cutting is executed for each page after weeding is completed, and a label is created.

Specifications			
Item	LCX603-01 (Single color model)	LCX603-02 (Two color model)	LCX603 (Three color model)
Printing method	Thermal transfer		
Resolution	600 x 1200 dpi, 600 x 600 dpi		
Number of thermal head	1*	2*	3
Printing colors	1 color (only black)	Max. 2 (black & 1 color)	Max. 3 (black & 2 colors)
Printing speed	Max. 35 mm/s		
Effective printing width	Max. 100 mm		
Effective printing Length	40 mm – 200 mm (in each label)		
Printing position accuracy	N/A	+/- 0.3 mm or less (after adjusted in the menu)	
Min. printing character size	8 pt		
Min. printing line width	0.3 mm		
Ink ribbon	Size	width 120 mm, Length 100 m	
	Core size	Bore 1 inch, width 140 mm; Max. diameter of ribbon: 50 mm	
Available ink ribbon	Semi-RESIN type: Black	Semi-RESIN type: Black, Red, Blue, Green, Orange	
	RESIN type: Black	RESIN type: Black, Red, Blue, Yellow, White	
Label material	Width: 70, 80, 90, 100, 110, 120, 130 mm, Thickness: 25 µm - 85 µm Outside diameter of roll: Max. 195 mm (approx. 100 m long) including 3-inch core		
Laminate material	Width: 50, 60, 70, 80, 90, 100, 110 mm Outside diameter of roll: Max. 140 mm including 3-inch core Core size for take-up: Bore 1 inch, Width: 140 mm		
Cutter section	Cutting method	Contour cutting by knife blade	
	Cutting blade	Super-steel, 0.9 mm dia. (CB09UB)	
	Cutting area	Max. 100 mm x 200 mm	
	Cutting speed	Max. 300 mm/s	
Mainframe section	Print and cut alignment accuracy	0.5mm or less (after adjusted in the menu)	
	Interface	USB 2.0 (High speed), Ethernet (10BASE-T, 100BASE-TX)	
	LCD	20 characters, 4 line	
	Power supply	100 V to 240 V AC, 50 or 60 Hz	
Power consumption	Max. 600 VA		
Environment ²	Operating: 10 °C to 35 °C, 35 % to 75 % RH (non-condensing) Guaranteed accuracy: 16 °C to 32 °C, 35 % to 70% RH (non-condensing)		
External dimensions (W x D x H)	Approx. 1,035 mm x 423 mm x 614 mm		
Weight	Approx. 67 kg	Approx. 69 kg	Approx. 71 kg
Separator section	Weeding and winding material automatically (Core size for take-up weeded material: 1 inch bore, Width: 140 mm)		
Cross cutter section	Cross-cut by the knife, Ejecting in sheet, Including tray		
Supported OS	Windows 10 / 8.1 / 8 / 7 / Vista		
Supported barcode	Code39, Code128, ITF, NW-7, UPC-A, UPC-E, UCC/EAN128, JAN8, JAN13, Post office customer bar code		
Compliance of standard	UL/cUL, FCC Class A, CE mark (Low Voltage, EMC directive), RoHS
